Technical description: The Porsche 997 Cup kit is a complete assembly kit including installation instructions for self-installation. It consists of the following components:

Type No. Quantity Description 430-211-011 1 AGS central unit Family II 351-471-011 1 Installation kit central unit 997 Cup kit 351-461-011 1 Dash 6 air hose AGS to valve block 430-026-011 1 Connecting cable Family II 410-071-011 1 Valve block 3-V Family II 351-474-011 1 Installation kit valve block 997 Cup kit 410-161-011 1 Shift cylinder 997 Cup 351-472-011 1 Installation kit shift cylinder 997 Cup kit 351-451-011 2 Air hose shift cylinder 351-402-911 or 351-401-911a 1 Blip system 997 Cup Gen 1 (built up to 2009) Blip system 997 Cup Gen 2 (built from 2010) 351-441-011 1 Air hose blip 351-475-011 1 Reverse Blocker Set 351-411-011 1 Shift paddle conversion kit for steering wheel 351-026-011b 1 Wiring loom 997 Cup 351-473-011 1 Installation kit wiring loom 997 Cup kit 378-363-012 1 Programming cable USB 351-491-011 1 Installation CD 997 Cup (incl. installation instructions) The MEGA-Line Porsche 997 Cup paddle shift complete kit was designed for Porsche 997 GT3 Cup cars with sequential gearboxes. This "plug & play" paddle shift kit is available in two versions, one suiting the 997 generation 1 which built up to 2009, the other tailor-made for the generation 2 997 Cup car built from 2010 onwards. For older Cup or even RSR cars, it is possible to modify the kit on request. Pre-requisite is a sequential gearbox.

For Pricing Information for installing, I will need to know what the vehicle is line a Porsche 997.1 or 997.2 and what ECU and hardware you are running. For instance, Bosch ECU MS3.1, Motec, AIM and Smarty Cam, Bosch ABS System, Cosworth... I also will have to know what Megaline system you have ordered with its own cable and programming cable, Software, Etc...
